Storrs Center is a mixed-use town center and main street corridor at the crossroads of the Town of Mansfield, Connecticut and the University of Connecticut. Located along Storrs Road adjacent to the University, the Town Hall, the regional high school, and the community center, Storrs Center knits thoughtful architecture, pedestrian-oriented streets, and public spaces into a series of small neighborhoods that make up the new fabric of the town center. Ground floor retail and commercial uses opening onto landscaped sidewalks reinforce traditional street front activity and is supported by residences above and shared community spaces. Storrs Center combines retail, restaurant, and office uses with residential apartments.
